# SPORT KOTE®

**WATER-BASED  
URETHANE WOOD FINISH**

**THE HIGH  
PERFORMANCE,  
TIME SAVING AND COST  
EFFECTIVE CHOICE**

**SPORT KOTE®** is the industries leading waterborne wood finish for good reason. It has been engineered to meet the demanding needs of today's athletic clubs which require an easy to apply product that is ready for foot traffic the next day. Waterborne OMU's are gaining in popularity as VOC regulations push traditional solvent-based OMU's out of many markets across the country. When compared, Sport Kote is the easy choice for recoating your wood floors.

## BENEFITS OF SPORT KOTE WATERBORNE OMU'S

Simplified and time-saving floor preparation with pads.

One hour dry time and recoat time.\*

24 hour cure time with gymnasium opening to full activities.

800 - 1000 square feet per gallon coverage.

Restores to like-new with high speed burnishing.

**VS.**

Time consuming floor preparation with 120 grit sand screens.

Six to 16 hour recoat time.

48 hours for light traffic and 2 - 5 days for full activities.

500 - 600 square feet per gallon coverage.

Responds poorly to restoration through burnishing.

\*Dry times may vary depending on weather conditions.
