## **SAFETY DATA SHEET**

Low Suds

### Section 1. Identification

| GHS product identifier | : | Low Suds |
|------------------------|---|----------|
| Other means of         | : | 33LD     |
| identification         |   |          |
| Product type           | 1 | Solid.   |

Relevant identified uses of the substance or mixture and uses advised against Not applicable.

| Supplier's details   | : Essential Industries, Inc.<br>P.O. Box 12<br>Merton, WI 53056-0012<br>Phone: 262-538-1122 |
|--|---|
| Emergency telephone<br>number (with hours of<br>operation) | : 800-843-6174 (24 Hours)   |

### Section 2. Hazards identification

| OSHA/HCS status                            | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
|--|---|
| Classification of the substance or mixture | : SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A  |

#### **GHS label elements**

Hazard pictograms

| Signal word                         | irning   |
|-------------------------------------|--|
| Hazard statements                   | uses serious eye irritation.   |
| Precautionary statements            |  |
| General                             | ad label before use. Keep out of reach of children. If medical advice is needed,<br>/e product container or label at hand.   |
| Prevention                          | ear eye or face protection. Wash hands thoroughly after handling.  |
| Response                            | N EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if sent and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. |
| Storage                             | t applicable   |
| Disposal                            | t applicable   |
| Hazards not otherwise<br>classified | ne known.  |
|                                     |  |

### Section 3. Composition/information on ingredients

#### Substance/mixture Other means of identification

: Mixture

: Not available

#### **CAS number/other identifiers**

| CAS number   | : Not applicable |
|--------------|------------------|
| Product code | : 33LD           |

| Ingredient name                      | %       | CAS number  |
|--------------------------------------|---------|-------------|
| sodium carbonate                     | 30 - 60 | 497-19-8    |
| 4-Nonylphenol, branched, ethoxylated | 5 - 10  | 127087-87-0 |
| pentasodium triphosphate             | 1 - 5   | 7758-29-4   |
| disodium metasilicate                | 1 - 5   | 6834-92-0   |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

### Description of necessary first aid measures

| Description of necessary mst |   |
|------------------------------|---|
| Eye contact                  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |
| Inhalation                   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.  |
| Skin contact                 | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.   |
| Ingestion                    | : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

#### Most important symptoms/effects, acute and delayed

| Eye contact  | : Causes serious eye irritation.                    |
|--------------|---|
| Inhalation   | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion    | : Irritating to mouth, throat and stomach.          |

| Date of issue/Date of revision | :12/19/2014. | Date of previous issue | : 11/4/2014. | Version | :0.02 | 2/10 |
|--------------------------------|--------------|------------------------|--------------|---------|-------|------|
|                                |              |                        |              |         |       |      |

### Section 4. First aid measures

| Eye contact                | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
|----------------------------|--|
| Inhalation                 | : No specific data.  |
| Skin contact               | : No specific data.  |
| Ingestion                  | : No specific data.  |
| Indication of immediate me | dical attention and special treatment needed, if necessary   |
| Notes to physician         | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>  |
| Specific treatments        | : No specific treatment.   |
| Protection of first-aiders | <ul> <li>No action shall be taken involving any personal risk or without suitable training. It may<br/>be dangerous to the person providing aid to give mouth-to-mouth resuscitation.</li> </ul> |

#### See toxicological information (Section 11)

# Suitable extinguishing i Use an extinguishing agent suitable for the surrounding fire.

| Suitable extinguishing media                      | : Use an extinguishing agent suitable for the surrounding fire.   |
|---|---|
| Unsuitable extinguishing media                    | : None known.   |
| Specific hazards arising from the chemical        | : No specific fire or explosion hazard.   |
| Hazardous thermal<br>decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>sulfur oxides<br>phosphorus oxides<br>metal oxide/oxides                                |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |
|   |   |

### Section 6. Accidental release measures

| Personal precautions, protect  | tive equipment and emergency procedures   |
|--------------------------------|---|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Provide adequate ventilation.<br>Wear appropriate respirator when ventilation is inadequate. Put on appropriate<br>personal protective equipment. |
| For emergency responders       | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |

| Date of issue/Date of revision | : 12/19/2014. | Date of previous issue | : 11/4/2014. | Version : 0.02 | 3/10 |
|--------------------------------|---------------|------------------------|--------------|----------------|------|
|                                |               |                        |              |                |      |

### Section 6. Accidental release measures

| Environmental precautions   | :          | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
|-----------------------------|------------|---|
| Methods and materials for c | <u>ont</u> | ainment and cleaning up   |
| Small spill                 | :          | Move containers from spill area. Avoid dust generation. Using a vacuum with HEPA filter will reduce dust dispersal. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                 | :          | Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
|                             |            |   |

### Section 7. Handling and storage

#### Precautions for safe handling

Date of issue/Date of revision

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.   |
|--|--|
| Advice on general occupational hygiene                             | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination |

### Section 8. Exposure controls/personal protection

| Control parameters               |             |   |
|----------------------------------|-------------|---|
| Occupational exposure lin        | <u>nits</u> |   |
| None.                            |             |   |
| Appropriate engineering controls | :           | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Environmental exposure controls  | :           | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |
| Individual protection meas       | <u>ures</u> |   |
| Hygiene measures                 | :           | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |

4/10

Version : 0.02

### Section 8. Exposure controls/personal protection

| Eye/face protection    | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.   |
|------------------------|--|
| Skin protection        |  |
| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Body protection        | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected<br>based on the task being performed and the risks involved and should be approved by a<br>specialist before handling this product.  |
| Respiratory protection | : Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.  |

### Section 9. Physical and chemical properties

| <u>Appearance</u>                                 |  |
|---|--|
| Physical state                                    | : Solid.   |

### Section 11. Toxicological information

#### Numerical measures of toxicity

| Acute toxicity estimates |  |
|--------------------------|--|
|                          |  |

| Route | ATE value                     |
|-------|-------------------------------|
|       | 4999.3 mg/kg<br>37889.9 mg/kg |

### Section 12. Ecological information

| Product/ingredient name  | Result                             | Species                                       | Exposure |
|--------------------------|------------------------------------|---|----------|
| sodium carbonate         | Acute EC50 242000 µg/l Fresh water | Algae - Navicula seminulum                    | 96 hours |
|                          | Acute LC50 176000 µg/l Fresh water | Crustaceans - Amphipoda                       | 48 hours |
|                          | Acute LC50 265000 µg/l Fresh water | Daphnia - Daphnia magna                       | 48 hours |
|                          | Acute LC50 300000 µg/l Fresh water | Fish - Lepomis macrochirus                    | 96 hours |
| pentasodium triphosphate | Acute EC50 276.61 mg/l Fresh water | Crustaceans - Ceriodaphnia<br>dubia - Neonate | 48 hours |
| disodium metasilicate    | Acute EC50 33.53 mg/l Fresh water  | Crustaceans - Ceriodaphnia<br>dubia - Neonate | 48 hours |
|                          | Acute LC50 2320 ppm Fresh water    | Fish - Gambusia affinis - Adult               | 96 hours |
|                          | Chronic NOEC 160 mg/l Fresh water  | Algae - Pseudokirchneriella subcapitata       | 72 hours |

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

| Soil/water partition | : Not available |
|----------------------|-----------------|
| coefficient (Koc)    |                 |

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

| Disposal methods : | The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

### Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
