

Essential Floor Care

Demo Stories

The Setting

A university about 20 miles northeast of Atlanta on a brisk winter evening around 10 PM.

After getting a late start, the team at the university set to work prepping the floor with Blue Concentrate. Not wanting to be there all night, when the floor was ready, they quickly moved on to applying the first coat of X-Coat™ Nano.

The staff were immediately impressed with the fast dry time and the gloss after only one coat. In fact, they commented that they had never seen a finish dry that quickly before.

The next 3 coats went down with the same amazing dry time; the gloss building with each coat. After the fourth coat, the floor reflected like a mirror.

In just over 2 hours, the floor was scrubbed and refinished and the tired crew was able to go home early enough to still get some sleep.

Another success story in the books!

Product Used:

- Blue Concentrate
- X-Coat™ Nano 22
