

SCHOOL CLEANING: USAGE BY PRODUCT

Neutral Germicidal Cleaner **49**

2749SC

Where to use:
Use to disinfect hard, non-porous surfaces such as tables, door handles, restroom fixtures, and all high touch areas. It can also be mopped down to disinfect restroom floors.

General directions for disinfecting restroom floors:

Mop down Neutral Germicidal Cleaner (49) thoroughly. Allow the product to "dwell" for 10 minutes to effectively kill germs. Make sure the floor stays wet for the entire 10 minutes.

Tip: If there is heavy soil buildup then it may be necessary to mop with Blue Concentrate (56) before applying Neutral Germicidal Cleaner (49).

General directions for disinfecting classrooms and restrooms:

Wet all surfaces thoroughly with a spray bottle. Allow the product to "dwell" for 10 minutes to effectively kill germs. Make sure the surface stays wet for the entire 10 minutes. Wipe away remaining product with a clean rag.

Glass Advantage **41**

2741SC

Where to use:

Use this product on glass, mirrors, chrome, stainless steel, and all washable surfaces that do not require disinfection.

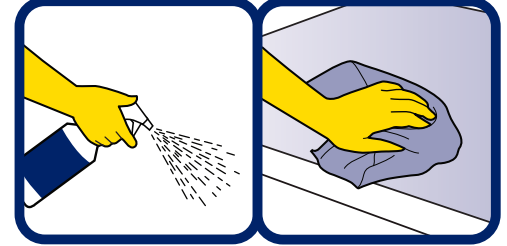

General directions for cleaning:

Spray on the surface and wipe off with a clean dry rag or paper towel.

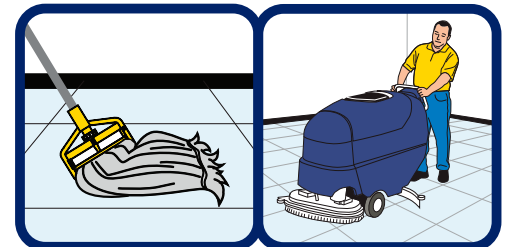

Blue Concentrate **56**

4085FC

General directions for cleaning:

Spray on the surface and wipe off with a clean dry cloth.

General directions for floor cleaning:

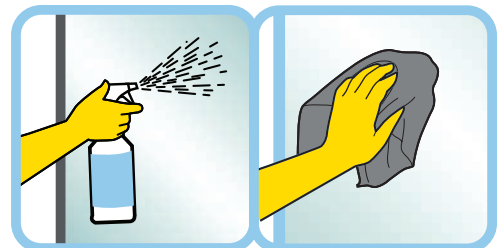

Mop bucket method - Mop down Blue Concentrate. No need to rinse.

Auto scrubber method - Run Blue Concentrate through an auto scrubber fitted with red cleaning pads. No need to rinse.

Peroxide Concentrate **52**

519SC

Where to use:

Use this product on glass, mirrors, chrome, stainless steel, and all washable surfaces that do not require disinfection. Use also for carpet spotting and extraction.

General directions for cleaning:

Spray on the surface and wipe off with a clean dry rag or paper towel.
