

CAPTAIN ESSENTIAL TO THE RESCUE!!!

©2023 Essential Industries, Inc.

We need to spruce up this gym floor in time for this weekend's volleyball game!

We could refinish it, but our oil-based wood finish takes several days to dry!

I know someone who can solve this dilemma!

CAPTAIN ESSENTIAL

You can get it all done in time with Sport Kote PC and it will look

AAMMAAZZINNG!!

How is that even possible, Captain E?

Sport Kote PC adheres to the existing finish with no sanding or screening! Just pre-clean with restorer!

And it only takes 5 hours to refinish a gym floor with just 2 people!

2 people...

5 hours for 2 coats...

WOW!

Sport Kote PC's AMAZING water based formula allows it to dry much faster than oil-based products! So, you can play on it the next day!

Play on it the next day!

But we refinished our floor less than a year ago, Captain E! Do we really need to do a complete recoat already?

NO PROBLEM!!

In that case, you can spiff up your floor by burnishing it with Citrus Scrub 'N Shine to increase it's gloss and slip-resistance!

Burnishing with Citrus Scrub 'N Shine will restore the shine to your floor and raise the slip coefficient!

Incredible! This gym is ready for the game!

And it looks AMAZING!
