

Resilient Floor Care

Our ability to develop and manufacture advanced acrylic polymers makes Essential Industries a known leader in floor care technology. We offer an extensive line of resilient floor finishes, cleaners, restorers and strippers to help maximize the life, durability and exceptional gloss of your floors.

Green Floor Care

Essential's Green Floor Care System is excellence in environmentally-responsible floor care. G2, our premiere green finish, will astound you with its performance! Use G2 in conjunction with our green cleaner and green stripper and you will benefit from superior floor care with less environmental impact.

Terrazzo Floor Care

T-Rx is a high performance terrazzo coating designed for interior applications. It uses IPN technology for unsurpassed mar and scratch resistance, high gloss and stain resistance. At Essential, we design and manufacture our own acrylic, urethane and polyethylene polymers. This allows us to create coatings that are truly unique in our industry.

Cleaners/Degreasers

Essential Industries has a wide selection of effective multi-purpose cleaners and degreasers for the daily maintenance of floors, walls, glass, countertops, and other hard, water-safe surfaces. No matter what type of surface you need to clean, Essential has product options that will meet your needs.

Restroom Care

Restrooms are the toughest area of any building to keep clean and odor-free. From disinfectants and grout cleaners to all-purpose cleaners and bowl cleaners, Essential has the products necessary to make it easier for you to keep even the busiest restroom clean and sanitary.

Concrete Floor Care

Essential has created cutting edge products and well-developed procedures to provide an effective, yet simple solution to your concrete floor care needs. Our ability to create unique chemistries has given Essential the opportunity to design products made specifically for concrete floors.

Wood Floor Care

Sport Kote[®] PC features revolutionary polycarbonate technology that provides amazing scratch resistance, scuff resistance, durability, depth of gloss and gloss longevity. Your wood floor prep, application and maintenance will be greatly improved with this reliable and versatile team of products.

Emax Dispensing System

Essential's Emax program consists of high-performance, super concentrated products combined with a wide selection of dispensers, along with locking cabinets and sturdy wall-mounted racks. These options allow you to customize your dispensing system to meet your specific needs.

Carpet Care

When it comes to bonnet cleaning, deep extraction, spot cleaning and defoaming, Essential's carpet care products will help you clean and maintain carpets in heavy traffic areas found in health care facilities, schools, offices and retail environments.

Food Service

Essential Industries has the products you need to keep your food service surfaces clean and safe. We offer detergents, degreasers, and sanitizers for use in supermarkets, restaurants, cafeterias, commissaries and other food service establishments.
