

# SPORT KOTE® PC

## PRO

178SF

## FREQUENTLY ASKED QUESTIONS

**Q:** Once I've added the catalyst to the 2.5-gallon container, how long does it stay catalyzed?

**A:** The product will stay catalyzed for approximately 8 hours.

**Q:** Is Sport Kote® PC PRO able to be re-catalyzed if the catalyzed product isn't used within the recommended 8 hours?

**A:** Yes, absolutely! You have the choice of using the product "as-is" or catalyzing it one more time.

**Q:** Are we able to play on the floor the next day?

**A:** Yes, 24 hours is recommended in a well-ventilated gym.

**Q:** Does Sport Kote® PC PRO have the same easy floor prep as the original Sport Kote® PC?

**A:** Yes, Sport Kote® PC PRO requires the same easy prep as Sport Kote PC. See the label for floor prep directions.

**Q:** Can Sport Kote® PC PRO be sold and used in every US state and Canada? What certifications does it have?

**A:** Yes, Sport Kote® PC PRO is VOC-compliant in all 50 states and Canada. It is an MFMA-compliant finish and is also UL-classified for slip resistance.

**Q:** If I lose the catalyst, can I use the product without it?

**A:** Yes, you can use the product without the catalyst. It is the equivalent of 168SF (Sport Kote® PC PLUS) You can also purchase another catalyst from Essential. Contact Customer Service for more information.

**Q:** If I only use half of a catalyzed 2.5-gallon container, can I save it to use later?

**A:** Yes. Screw the cap back onto the container and store in a temperature-controlled area. The coating will be fine to use for approximately one year. Feel free to contact your salesperson or customer service if you have questions regarding this.
