CONCRETE

FLOOR CARE PROGRAM

- Durable
- Fast-drying
- Low VOCs
- Stain-resistant
- Superior adhesion

**A Simple
Solution**

CONCRETE

FLOOR CARE PROGRAM

A Simple Solution

Essential Industries' Concrete Floor Care Program will simplify your concrete floor care maintenance while simultaneously taking it to a level previously unavailable in our industry.

Together these specially designed products create a floor care program that will help you beautify and maintain your concrete floors.

THE SCIENCE BEHIND IT...

Pantheon Concrete Sealer is unlike any of our other floor coatings.

- A polymer made specifically for concrete floors
- In addition to our cross-link material designed in-house, Pantheon contains inorganic material that reacts with the concrete to **ANCHOR IT DOWN.**
- The inorganic material is part of the acrylic chain; not just an additive
- The finished product is acrylic only; no waxes or resins like those found in a standard floor finish

Before

After

Essential's ability to develop advanced acrylic polymers with self cross-linking technology has given us the opportunity to design a polymer made specifically for concrete floors.

With over 50 years of experience inventing brand new polymers, Essential has become a world leader in polymer innovation and floor care technology.

This extensive experience ensures complete control over the design and quality of the products from start to finish.

Innovation is Essential.

FEATURED PRODUCTS

273CF

PANTHEON

Concrete Sealer

Penetrates surface pores and chemically anchors to the concrete!

Are time and labor in short supply?

Pantheon Concrete Sealer provides amazing stain resistance and durability without the need for constant labor and maintenance. It's easy to apply, dries fast and eliminates the need for stripping. Pantheon also helps to reduce cowpathing for superior protection of your concrete floors.

PANTHEON - FOR MORE THAN JUST CONCRETE FLOORS:

*Not for use on all stone or hard tile floors - contact your Essential sales representative for more information.

2174FC

CENTURION

Concrete Cleaner and Densifier

Superior all-around cleaning powered by Blue Concentrate

Centurion will increase the cleanliness, gloss and durability of your concrete floors with each use, and the lithium densifier will rebuild and strengthen your surfaces when used as a daily or weekly cleaner.

164CF

IMPERIUM

Concrete Polish Guard

Ultra-high gloss is possible!

Standard finishes don't have the adhesion properties of a concrete polish guard, but Imperium was designed specifically FOR concrete surfaces. Along with its stain-resistant properties, it produces high gloss with stunning depth and a mirror-look.

**USE IT ON
TERRAZZO,
TOO!**

SAFETY PROFILE

Slip Resistance

- Every floor finish we supply is slip-tested to conform to ASTM D2047 standards.
- Underwriters Laboratories (UL) slip resistance classification provides a comprehensive floor care system under which applicable products are slip-tested, including: Finishes, Restorers, and Cleaners.

Slip and Fall Support

- Essential's floor care experts have a lifetime of experience helping customers with unique floor challenges. Contact your sales representative for more information.
- Essential can provide documentation that a given product has been classified slip-resistant by Underwriters Laboratories.
- Slip resistance information for our floor care products is available on the web.
